Before we start...

- 01 I won't be going into graphic details
- 02 Be mindful of others
- 03 You can leave at anytime
- 04 Any question is welcome
- 05 Mental health first aid available
- 06 'Survivors' is a controversial term

This not only affects survivors...

**£4.4
billion**

**lost in the labour
market** every year
due to childhood
sexual abuse.

77%

Of **local authorities
do not provide
dedicated support**
to children who
have experienced
sexual abuse, or
their non-abusing
family members.

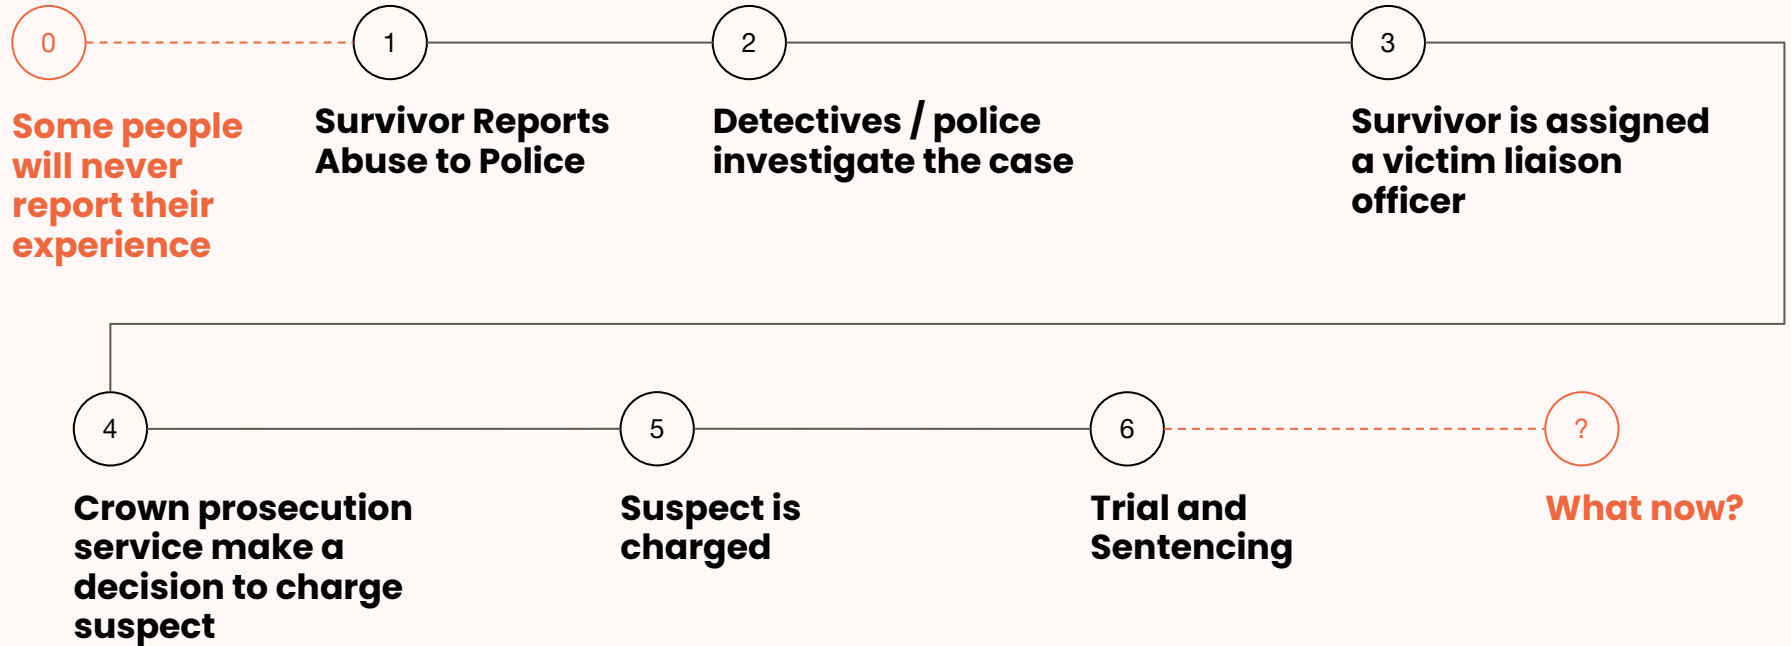

70%

of individuals
(families,
healthcare, social
services) express
a **need for clearer
guidelines** on how
to handle CSA
disclosures

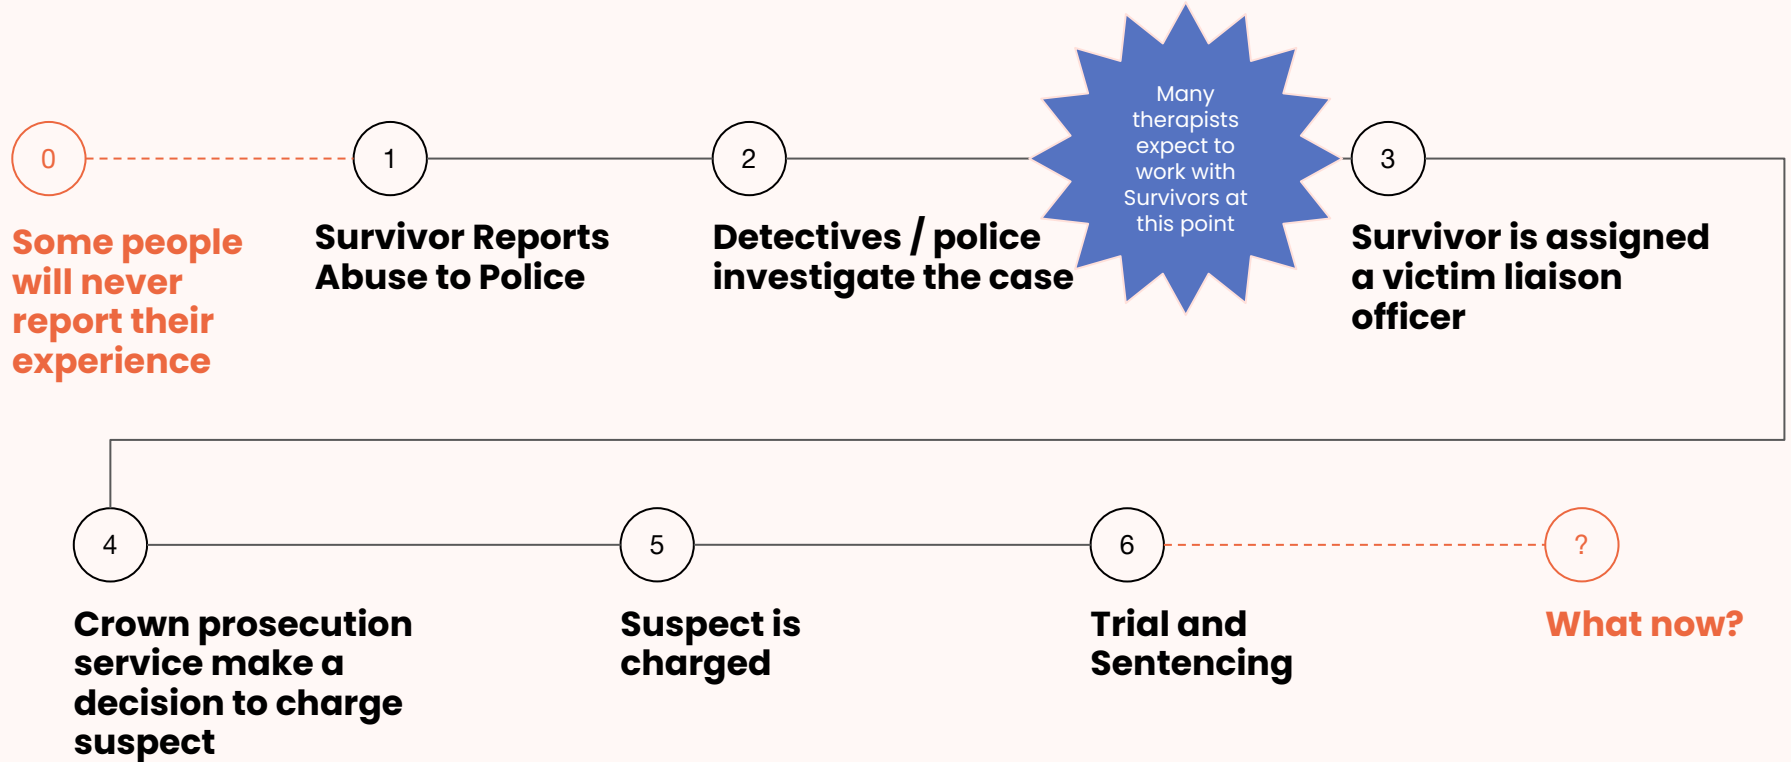

How does this affect the
psychotherapy space?

Fear of talking about CSA
= inadequate training
